The Development of Learning Health Care Systems: How Can Canada Own the Podium?

November 13-14 2017

Delta Hotel, 75 Lower Simcoe St, Toronto ON

Canadian Foundation for **Healthcare Improvement**
Fondation canadienne pour **l'amélioration des services de santé**

As Canada and other countries struggle with the profound challenges of improving our healthcare systems, there is a growing appreciation for the value of our healthcare systems becoming learning organizations. This idea, first enunciated a number of years ago, has evolved over time as new technologies, data infrastructure, and highly trained individuals have come forward. A great deal of progress has already been made, but we anticipate the promise of more to come. At this timely conference, coming as it does with the initiation of the first cohort of CIHR Health System Impact Fellows, we will assess how far we have come both in Canada and around the world, and lay out what should come next.

MONDAY, NOVEMBER 13, 2017

8:00am – 9:00am	BREAKFAST AND REGISTRATION
9:00am – 9:15am	OPENING REMARKS
